

InfiniTek Welcomes Richard Ulnick to Team

March 16<sup>th</sup>, 2010

Murrieta, CA

InfiniTek is pleased to announce that Richard “Rick” Ulnick will be joining their team as an Executive Account Manager. With two decades of experience delivering superior customer service to Fortune 100 clientele, Rick will enhance InfiniTek’s long standing reputation of developing comprehensive solutions utilizing the Microsoft Dynamics NAV platform.

Rick is confident that his extensive experience promoting the high technology solutions of companies such as IBM, RSA Security, VeriSign, and others will enable him to enhance InfiniTek’s proven track record of delivering unparalleled customer service and satisfaction.

Additionally, with experience developing advanced multilevel solutions to companies such as American Express, Universal Studios, Disney, and Qwest Communications, Rick possesses both the breadth and depth of knowledge necessary to deliver cost effective and productive solutions to organizations of all sizes.

When asked which of his strengths would best serve InfiniTek and its clientele, Rick noted that he is a “creative problem solver” who has a proven ability to analyze client needs and subsequently deliver creative and innovative solutions that improve organizational performance and efficiency.

Likewise, InfiniTek CEO Mary Williams is particularly enthused regarding the addition to the team, emphasizing that, “Rick is an embodiment of our continuing efforts to deliver unparalleled service to our customers.”

With Rick on board, InfiniTek will also expand their ever growing customer base in Southern California, by delivering comprehensive and cost effective SaaS solutions as well. Additionally, Rick looks forward to expanding Microsoft partner sales of Microsoft Dynamics NAV ScanDirect Plus™ and EQM Rental Management across the country.

Founded in 1986, InfiniTek is a Microsoft Gold Certified Partner servicing Southern California businesses. As a leading Microsoft Dynamics NAV partner, InfiniTek delivers business management solutions to small and mid-sized organizations looking to streamline their highly specialized business processes.
