

## ***InfiniTek* Adds New Office Location**

In order to better serve clients in San Diego, Riverside and Orange Counties, ***InfiniTek*** has added a more centrally located office in Old Town Murrieta earlier this month (March 2010). The Los Angeles-based Altadena office entailed quite a commute to critical client sites, which are now no more than an hour's drive from Murrieta.

Moreover, these new facilities are situated in the brand new developing section of Old Town Murrieta, replete with sumptuous amenities typical of upscale professional offices. This affords our clients a more pleasant overall experience for business meetings and presentations.

The 2<sup>nd</sup> floor conference room is spacious with a view from an arched picture window which frames a magnificent panoramic view of the rolling San Jacinto mountains off in the distance. Brick walls add authenticity to the Old Town Murrieta motif.

Downstairs is an extraordinary fine dining Italian restaurant – the family-owned **Anthony's Lounge and Ristorante**. **Anthony's** is the oldest family-owned restaurant in the Temecula/Murrieta Valley. The more than 50 items on the menu are based upon authentic family recipes brought over from Calabria, Italy in 1954.

“We’ve had a year of phenomenal growth and expansion”, says CEO Mary Williams. “This new facility will help us to enhance service to our customers.”

Needless to say, all the **InfiniTek** staff are excited about the new facility at **24630 Washington Avenue, Suite 202, Murrieta, CA 92562** and welcome you to visit.
